

Super Teacher Restrictions Enforced By Campus IDs

In Ignitia, at the individual teacher profile level, when one or more Campus IDs are selected for the user, the "[Restrict to Campus](#)" permission can be enabled (checked) for a Super Teacher.

When the "[Restrict to Campus](#)" permission is enabled (checked), certain restrictions are enforced in Ignitia to limit access to only those students with the *same Campus IDs* as the Super Teacher. If the permission is not enabled (left unchecked), the Super Teacher has access to ALL students, regardless of the associated Campus IDs for their profile.

Note: The exception to the "[Restrict to Campus](#)" permission enforcement occurs when the Super Teacher is the **Teacher of Record (TOR)** for an enrollment. Those students are seen by the Super Teacher, regardless of whether or not their Campus IDs are the same as the Super Teacher's Campus IDs.

For a Super Teacher with the "[Restrict to Campus](#)" permission enabled, the restrictions to features and functions are detailed in the table below.

Feature/function	Restriction
Create (register) students which defaults to selected, associated Campus IDs for the restricted Super Teacher	<p>On the Students > Registration tab, a Super Teacher (with permission) can register (create) students. By default, the Campus IDs associated to the Super Teacher are automatically selected for the student the Super Teacher is registering. For example, a school has 20 campus IDs. The Super Teacher, with the "Restrict to Campus" permission enabled, has four campus IDs associated to her Teacher profile. When the Super Teacher creates a new student (registers one), the list of campus IDs for the student is automatically defaulted to the four selected campus IDs for the Super Teacher. A campus ID can be unselected, but other campus IDs for the school are not available to the restricted Super Teacher.</p> <div style="border: 1px solid green; padding: 5px; margin-top: 10px;">  <p>Permission(s) check: Super Teacher must have the "Add Students" permission enabled for their user profile to create (register) students.</p> </div>
Create groups (search for students to include in the group)	<p>On the New Group page, when searching for students to include in the group, the Super Teacher only sees students with the same Campus IDs as the Super Teacher AND students with an enrollment for which the Super Teacher is the TOR.</p>

Feature/function	Restriction
